## ABOUT US

Since 2016, we are working to solve deep poverty problem and continue field observations and support work to achieve this goal. We are a whole solidarity network with supporters, donors, volunteers, and households living in poverty conditions.

## MISSION

- Mission 1: To contribute to the empowerment of individuals who cannot access to their basic rights and needs
- Mission 2: To contribute to the adoption of rights-based and holistic policies
- Mission 3: To contribute to the elimination of prejudices against poverty and those living in poverty

An Initiative of Open Space Association.

## WHAT ARE WE AIMING FOR?

We aim to support access to nutrition, shelter, education, and healthcare rights of individuals,

To support the well-being of women and children living in poverty conditions,

To make visible that poverty is a violation of rights stemming from policies,

To contribute to the implementation of empowering and preventive social support practices with sustainable and long-term policies,

To contribute to the increase of rights-based contents targeting to eliminate prejudices in society towards those living in poverty conditions.

# WHAT IS DEEP POVERTY?

Deep poverty is not a temporary problem for today,  
but a cycle that widens and affects the whole society  
being passed from generation to generation

Deep poverty, from the moment being born into it;  
not being able

to access sufficient food

to find shelter in a safe home

to receive education

to receive medical treatment

to dream

and

being stigmatized and excluded

losing one's voice,

not having the chance

to choose or having opportunities

and losing self-confidence.

# DEEP POVERTY NETWORK PRINCIPLES

As Deep Poverty Network;

We consider poverty as a phenomenon in which access to individuals' basic rights and needs is restricted, as well as access to economic, social, political, and cultural rights is hindered in a multidimensional framework.

We believe that the fight against poverty should be:

- Rights-based
- Believing in solidarity
- With sustainable policies
- By intervening urgently
- Protecting human dignity
- Participatory
- Open
- Transparent
- Accountable

# STRUGGLE AGAINST POVERTY

While fighting deep poverty;

In line with our principle of rights-based approach, **we approach poverty as a matter of inequality and human rights.**

We carry out social support activities for people living in poverty on a rights-based basis.

Both central and local governments should:

- Emphasize the multidimensional nature of rights violations that are the cause or result of poverty
- Acknowledge that the needs of each household and individual are unique
- Emphasize the necessity of systematically monitoring needs and conducting preventive work to prevent rights violations

Believing in solidarity; we advocate for the basic concepts of **"solidarity" and "access to human rights" instead of hierarchy-based concepts such as "goodness" and "mutual assistance"**.

We support the spread of the solidarity model within solidarity circles in their own communities by donors, volunteers and supporters.

# STRUGGLE AGAINST POVERTY

We advocate that sustainable policies are the most important tool in the fight against poverty. **We emphasize that the fight against poverty is a non-partisan issue, and we stand at an equal distance to all political parties and officials.** We continue to advocate for the reevaluation of the concept of poverty and related policies and engage in lobbying activities. We plan our activities and model applications according to the desires and needs of individuals who directly experience poverty. **We advocate for the right of individuals directly experiencing poverty to participate and emphasize the necessity for policymakers to consider their participation rights**

We value collaboration with NGOs working on rights-based approaches and data sharing.

In line with our principle of actively intervening in deep poverty conditions that lead to the violation of basic human rights such as the right to life and development by preventing access to adequate food, drinking water, basic hygiene and safety, education, and psychosocial needs, we intervene actively. We deliver the support we receive through donations to households.

# STRUGGLE AGAINST POVERTY

By emphasizing that deep poverty harms individuals' physical and emotional well-being, especially causing irreversible damage in the development of children, we advocate for local governments and central government bodies to urgently ensure access to the basic rights and needs of individuals living in poverty

**We advocate for the protection of individuals' rights, freedoms, and dignity in the delivery and dissemination of social support and believe that individuals' agency must be preserved.**

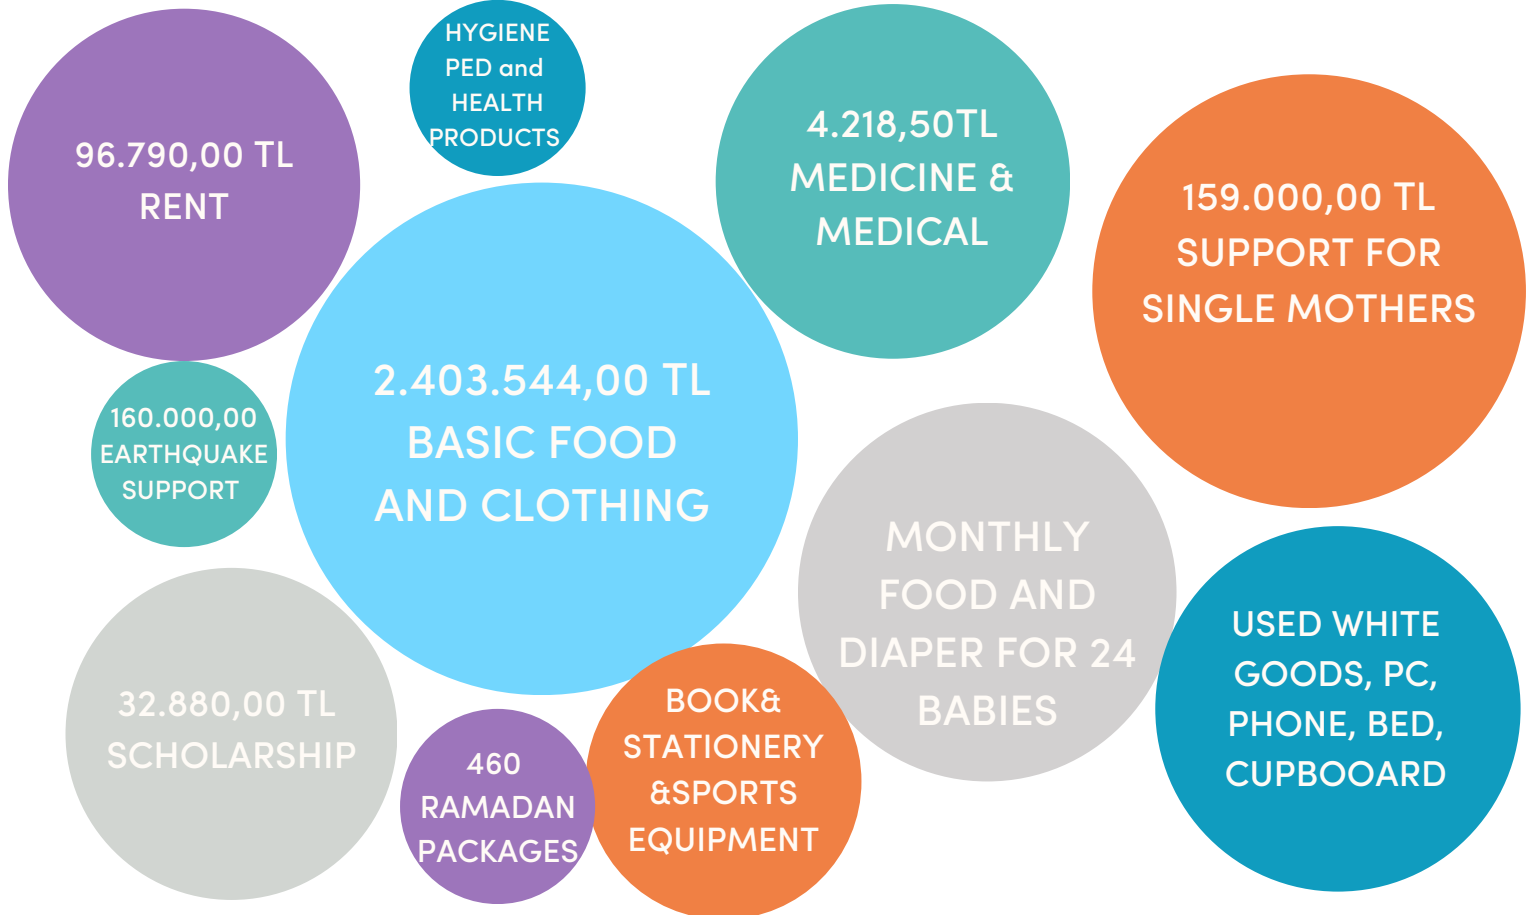

The Deep Poverty Network of Solidarity consists of volunteers, supporters, employees, and individuals fighting against poverty. We aim to ensure that the harmony and solidarity among these different components is reflected in our membership.

We aim to be accountable and transparent in monthly and annual activity reports, platform memberships, meetings, newsletters, all activities, and budget utilization.

# STRUGGLE AGAINST POVERTY

## Daily Life Support

Since 2020, we have been working with households in the districts of Ataşehir, Avcılar, Beyoğlu, Çekmeköy, Fatih, Esenyurt, Şişli, Ümraniye, Üsküdar, Sancaktepe, Sultangazi, and Sultanbeyli. We provide support such as market card/market code, stationery, menstrual care products, baby food, diapers, newborn care products, clothing, uniforms, shoes, and, according to individuals' specific needs, rent, bills, medication, incontinence products, medical supplies, and second-hand items. We deliver these supports in these districts until 2023.

# STRUGGLE AGAINST POVERTY

## Daily Life Support

- In 2023, the amount of basic food support increased to 1,000 TL.
- A change was made in the registration system to update the information of households and create new records for individuals evacuated from earthquake zones: A risk ranking was established prioritizing households with single mothers, female students continuing their education, and those evacuated to Istanbul due to a disaster.
- The majority of basic food supports were covered by the #evdendeğiştir campaign.
- Dalyan Foundation covered 12-months basic food support for 12 households.

## Research and Advocacy

### Poverty, Intersectionality, and Solidarity Workshop

As a first step towards increasing accessible, easily understandable, scalable, rights-based content; strengthening channels where theory and data meet; contributing to the international poverty literature; and building connections among actors focusing on all themes of deprivation touched by poverty, on October 17th, World Poverty Eradication Day, we organized a workshop titled "Poverty, Intersectionality, and Solidarity" at the Istanbul Planning Agency Florya Campus. Expert academics, representatives of civil society organizations, and representatives of public institutions participated in the workshop and provided valuable recommendations that will guide us all in the fight against poverty in the coming period.

# 2024 CALENDAR

Dear Gürcan Öztürk's photos, the 2024 Solidarity Calendar has been prepared. This calendar was prepared during the period when the hopes of the new year were embroidered on green branches with red buds, as the preparation of the kokina flowers began. Many of the women in the families reached by the Deep Poverty Network were working hard to prepare their homes with the kokina preparation, which required a lot of effort and time. The flower sellers in the photos supported solidarity in the fight against deep poverty, ensuring the existence of this calendar. Our endless thanks for their strength and smiles.
